VOL. 7, No. 43. TWELVE PAGES THIS WEEK. ST. CLOUD, OSCEOLA COUNTY, FLORIDA, THURSDAY, JUNE 21, 1917. $2.00 PER YEAR. FIVE CENTS THE COPY.

In the election called for July 21st the citizens of St. Cloud will have an opportunity of obtaining the light and power franchise that has heretofore been owned by a corporation, and of securing poles and wires with their equipment which are necessary to start off the new city plant, and at a price that will never be obtained again. New poles and wires could not be secured by the city for many months, and the cost of an entire new system would be out of the question at this time. Vote to instruct the city council to buy the franchise and wire system when the election arrives.

THE GOOD ROADS MASS MEETING AT THE G. A. R. HALL FRIDAY

Committee Appointed at Previous Meeting Makes Its Report---A Lively and Interesting Meeting

The Good Roads Mass Meeting which was called for Friday morning at ten o'clock, at the G. A. R. Hall, convened at the appointed hour with a goodly attendance of representative citizens. Messrs. Frost, Brammar and Ely, the committee appointed at a former meeting, occupied the rostrum and the meeting was called to order by Capt. L. D. Frost. The report of the committee appointed at the February meeting was called for and read by Mr. Brammar. The report was quite lengthy and we are able to give only a summary. The first meeting of the committee was held on February 12, at which Mr. Sam Brammar was elected secretary. On March 1st the committee held another meeting and decided to consult the law firm of Massey and Warlow, at Orlando, and get a decision. On March 4 the committee met Messrs. Massey and Warlow, and were informed that they were bound hard and fast in the district already formed, and that nothing further could be done in the matter. Capt. Frost suggested that there might be a way of objecting to the original district and was informed that if such objection could be sustained, we should then be free to go ahead with another bond issue. The committee examined the original petition and satisfied themselves that an objection could be made and sustained.

The committee was advised by Messrs Johnston & Garrett, of Kissimmee, that if an objection were raised it would rest with the defendants to prove the regularity of the proceedings. Accordingly it was decided to ask Mesrs. Massey & Warlow to proceed with the objection on the ground that the proceedings were irregular. A fee of $100 was advanced to the law firm. The result of the objections raised by our attorneys was that the district was declared to never have had a legal existence, hence the way was open for a new petition.

The committee immediately proceeded to draft a new petition, naming the amount of bonds to be voted as $275,000, and describing the townships through which the road was to run. In respect to material the committee followed the instructions of the meeting from which they received their appointment, and called for a sand-asphalt or bituminous concrete construction. The line defining the district was the same used in the former petition, consisting of Commissioners District No. 3. The term "hard surface" was not used in the petition as that was deemed too vague and indefinite. A copy of the petition was sent to [illegible] Road Department, which [illegible] Copies were also sen[illegible] Deer Park and [illegible] A few days before [illegible] ready to file the petition we [illegible] informed that the Consolidated Land Campany had certain objections to the road and would fight it in the courts. On June 1st we had a meeting with Mr. Chas. L. Gaines, the vice president of the company and succeeded in effecting an agreement with him by which we were to leave out one township and one-half of another in consideration of which Mr. Gaines agreed to make no further opposition to the road. The new petition has been modified to meet those requirements.

After the reading of the committee's report it occurred to the meeting that it would be well to have a chairman and secretary, and Mr. G. F. Smith was accordingly elected as chairman and Mr. James Goff as secretary. A motion was made and carried that the report of the committee be accepted and the committee continued.

A call was made for the reading of the minutes of the previous meeting, which was done by Mr. Brammar.

Addresses were made by Messrs. Porter, Brammar and Frost, explaining various points with reference to the petition.

It was moved and carried that this committee should follow the advice of their attorney in all matters. The officers of the meeting were continued for the next meeting.

On the suggestion of Mr. Ely it was decided that the new petition should be left at Mr. Brammar's store for signatures.

Mr. Brammar called attention to the fact that we were now paying the sum of $15,000 toward the roads of the county and getting practically no benefit from it, and that this sum would nearly pay the interest on the proposed bonds. A vote of approval of the action of the committee was passed by the meeting.

An interesting and at times somewhat heated discussion ensued upon the relative merits of brick and asphalt roads, both kinds having their earnest advocates. A motion to adjourn subject to the call of the chairman ended the discussion and the meeting.

LAND FOR THE LANDLESS

St. Cloud Development Company Offers 2,000 Acres for Free Cultivation

Attention is called to the half-page advertisement in this issue of the St. Cloud; Development Company, offering free of charge, to those who will cultivate them, 2,000 acres, rent free of Osceola county's fertile soil, at present uncultivated, but capable of producing a vast amount of food and forage products. This is practical patriotism, the kind that counts in results. It is an invitation to the landless man, the man who desires to aid his country and at the same time advance his own interests. Every indication for the future points to high prices for all kinds of agricultural products, during the entire length of the war. The man who adds to the nation's supply of food is not only "doing his bit" toward winning the war, as well as the soldier in the field, but he can be laying the foundation for ownership.

The man in overalls must co-operate with the man in khaki, if he would win. Soldiers must be well fed if they are to fight with vim. If we produce a surplus above our own imperative needs, our allies over in Europe will be glad to take it at good prices. The demand will be practically unlimited during the war's continuance.

In this connection it might be well to call attention to the fact that Osceola county has in the person of County Demonstration Agent B. E. Evans a willing, efficient and competent official, whose services are at the command, free of charge, of any farmer seeking advice or assistance in solving any problems that may arise. Mr. Evans combines practical and theoretical knowledge of farming to a rare degree. His experience in this county especially qualifies him to give advice regarding crops and culture.

Get a piece of this land and then get something growing on it as soon as possible. Remember that a proposition of this liberal nature is not made every day, and may never be made again. Go to it, you would-be farmers.

NATIONAL PATRIOTIC SUNDAY

Sunday, July 1st, Named as National Patriotic Day—Suggestions For Observance

Plan now to observe Patriotic Sunday, July 1st.

We suggest that the local Sunday schools make it the biggest celebration of the year.

All veterans of the Civil war, of the Spanish-American war and others who have served in either the army or Navy, should be especially invited and be given seats on the platform. If the Sunday school has a boy scout organization, it might be well for them to appear in their uniforms and take some part in the program.

Some schools may wish to have a short parade preceding the Sunday school exercises.

The object of observing Patriotic Sunday is:

To express gratitude to God for our Nation.

To arouse feelings of loyalty and devotion to the Nation;

To enlist all Sunday school members in some form of patriotic service;

To enroll as members of the Red Cross Society the officers, teachers and as many others in the Sunday school as wish to join.

To make an offering toward the Red Cross Society or other war relief agency or army Y. M. C. A. work.

GOOD ROADS MASS MEETING

There will be a mass meeting of the voters of Commissioner's District No. 3 at the G. A. R. Hall, on Monday, June 25, at 2 p. m., where the question of constructing a road from St. Cloud to the Brevard County line and from Ashton to Narcoossee, will be discussed and an urgent appeal is made to every liberty-loving citizen to be present.

It matters not what his views of the subject may be, let every man come out into the open and play the game. If you have anything to say, say it openly to the voters, not in the secret recesses of a closet, or behind the barred doors of ante rooms. The people have the right to know the truth and the whole truth.

This meeting will be held under the direction of the St. Cloud Board of Trade.

ST. CLOUD BOARD of TRADE.
Sam Brammar, Prest.

To the Voters of Third Commissioner's District Osceola Co.:

In view of the fact that a petition will be presented to the board of county commissioners at their meeting to be held on July 2nd, 1917, praying that an election be called to bond this district in the sum of $275,000, to build a sand-asphalt or bituminous concrete road 9 feet wide from the canal on the west of St. Cloud, through St. Cloud to Ashton, and from Ashton to the Brevard county line, also from Ashton to Narcoossee, a distance approximately of thirty-seven and one-half miles, said petition having been prepared by a committee appointed at a mass meeting held in this city and at which meeting and all subsequent meetings declared unanimously for the character of material to be used in the construction of said road, and by votes of confidence fully concurred in the action of the committee in specifying the above named materials. Owing also to the fact that a petition or petitions are being circulated in this district, asking the commissioners to call an election for the purpose of giving the people an opportunity to express their opinion for or against a bond issue to build a brick road eight feet wide over practically the same route in this district.

The Board of Trade of St. Cloud, which has labored for many years to have this road constructed, feel it a duty to lay before the voters of this district the facts as regards the controversy now waged in regard to the merits of the different materials proposed to be used, and would draw to the attention of the voters the following salient features:

The figures which have been used by the committee from the mass meeting, were taken from the State Highway Commissioner's estimate of cost of the road. The commissioner, at the request of the people, was asked to come here and give us an estimate of the cost of the road. Engineers from the State Department came here and made complete surveys, and estimates of the proposed work, and these estimates were the basis from which the committee worked. The State Department has taken more than a passing interest in the project, and as it is only governed by cost in choosing respective materials it is obvious therefore that its estimates should not be discarded without due consideration. The State Department stands at present ready and willing to help us, should the voters feel justified in soliciting its help. As proof of further faith the Department a few weeks ago conducted numerous experiments at its own cost for base materials, and this road was chosen above all roads in Florida for these experiments.

Further, it should be noted that if a bond issue for good roads is voted down by the people no other election can be held for this purpose within a year, according to the state law on the subject.

Without going further into a discussion of this question we close this article with a firm belief that the voters of Commissioner's District No. 3 are men too broad-minded to be misled by highly colored talks and misrepresentations made by persons who are either ignorant of or have no knowledge of the cost or durability of any material used in road construction, or who have no interest in St. Cloud or Osceola county beyond sucking the financial teat until the last penny is abstracted and who will then, like the Arab, fold his tent and flee to pastures new to again ply their wiles upon a people less wise than we have become since their advent among us, and cast their votes, and use their influence for the petition that is the outcome of the people's wishes and not for the petition that is the ill-begotten spawn of mercenary libinights and their deluded followers.

ST. CLOUD BOARD of TRADE,
By Sam Brammar, Prest.

Judge V. S. Decker, son of our local attorney, Judge S. D. Decker, arrived in St. Cloud last Saturday from Los Angeles, California, via Guthrie, Okla., whither he went in search of health. But neither of those places suited him and he came to St. Cloud. He has already experienced relief and will remain all summer and possibly next winter.

THE RED CROSS WORLD-WIDE IN ITS CHARITABLE WORK

Its Ships Plow Every Sea; Its Trfains Run In Every Land; Handles Millions to Relieve Human Suffering

Never in all the years of the world has the appeal for sympathy and succor from suffering humanity swelled to such a volume as now. Never has the American heart throbbed so warmly in response or yearned so strongly to do the work of relief.

The organization for the attainment of these ends is the Red Cross. It alone of all organizations of relief and mercy is the legally constituted engine authorized to work with the government itself to aid the stricken and dependent.

The Red Cross in all its branches, in many nations, is one of the greatest of all human organizations. More persons are working for it and to achieve its ends than for any other single organization in the world. They number two millions in America alone.

The funds it handles run into hundreds of millions of dollars. Its ships plough all the seas; its trains, its motors and other means of conveyance are in every land.

Since the opening of the great war the Red Cross has grown at a rate hitherto unprecedented. In America alone it has sprung from less than fifty thousand to more than two millions.

President Wilson has appointed Henry P. Davison chairman of the Red Cross War Council. Associated with Mr. Davison on the committee are Cornelius N. Bliss, Jr., William H. Taft and other men eminent in the affairs of the nation.

In stricken France alone it is estimated that fully six hundred thousand persons are suffering from tuberculosis as a result of the trench warfare. Millions of men and women and children within the borders of Russia and Poland are hopeless and comfortless. To bring relief to misery, to restore communities, to take care of the wounded of our own armies, soon to be somewhere in France, would require that the American Red Cross be carried to a degree of organization never before seen. Fo so gigantic a mission of mercy as here contemplated probably $500,000,000 would not be too great a sum.

The general nature of the task before the Red Cross has been indicated. But no absolute budget can be made for it.

To give a concrete idea of these real and present needs: The American Red Cross has representatives in France acting in co-operation with the French government officials. A recent cable from them asked immediate shipment of fifty more ambulance transport sections (having a total of 1,250 cars), merely to replace those that have been destroyed in France. But we shall need to organize many new ambulance sections, calling for thousands of automobiles and trucks.

That was only one item. They asked for five sanitary trains, each with its staff of doctors and nurses. A few more things wanted at once were:

5,000 stretcher bearers.
5,000 Nurses.
400,000 pairs of woolen socks.
200,000 blankets.
10,000 kilos of quinine.
30,000 kilos of cod liver oil.
20,000 metres of oil cloth, etc.

These were only immediate urgent needs. They do not begin to measure the total that will bew needed as the war goes on. Other cablegrams like that will keep coming right along

THE ST. CLOUD-MELBOURNE ROAD QUESTION COMING TO THE FRONT

Suggestion That the Material of Construction Be Left to a Vote of the People

Developments of the past few days have placed a somewhat different aspect upon the Melbourne-St. Cloud road question. Petitions are now being circulated asking the county commissioners to form a new road and bridge district out of the present commissioner's District No. 3, and authorize the calling of an election for the purpose of voting bonds for $265,000 for the construction of a brick road eight feet in width, grouted, with cement or concrete shoulders, making the actual width of the road nine feet. These petitions are being freely signed, copies will be sent to Deer Park and Narcoossee for signatures, and when the requisite number of signatures have been obtained they will be presented to the county commissioners at their next meeting.

In the meantime the petitions calling for a sand-asphalt, or bituminous concrete construction are supposed to be on their way to the same meeting of the commissioners, and it becomes an interesting question as to what action the commissioners will take with two petitions facing them calling for two different methods of construction. One of the commissioners has been said to have expressed himself as favoring "verified brick, groutched." Perhaps the others are equally in favor of brick, in which case the advocates of other methods may as well hang their fiddles on the wall. But, of course, this is all surmise, and nothing is definitely known as to what action the commissioners may, in their wisdom, decide to take.

The suggestion has been made and there would seem to be merit in it, that the character of the road be left to the people themselves, that is, that the ballot as finally presented to the voters, should carry a choice as to the material of construction, embodied in the words "For brick; For Sand-Asphalt," as well as for and against the issuance of bonds. We believe this can be legally done, and it would relieve the commissioners of an embarrassing and unpleasant duty, besides guaranteeing to the people of the district the kind of road which the majority of them want. The peopl of the district pay for the road, and they will furnish the bulk of the travel over it and why should they not be the final arbiters as to its construction?

We have not the slightest doubt but that the commissioners in making their decision will be actuated by a sincere desire to meet the wishes of the taxpayers of the district. But how can those wishes be ascertained except by a direct vote? The relative number of names on the petitions can hardly be accepted as a safe guide, for that may possibly indicate nothing more than the superior industry or persuasiveness of the committee. Majority rule is an established democratic principle, and will hardly be disregarded by any board of county commissioners, provided the will of the majority can be ascertained.

EXERCISES ON FLAG DAY

Interesting Prodgram Redered By Union of Several Societies

Flag Day, Thursday, June 14, was fittingly observed by the Women's Relief Corps, assisted by the G. A. R. Post, Army and Navy Union Auxiliary and Daughters of Veterans.

The Corps and Post held a meeting at the usual hour for the W. R. C., after which there was an open meeting for the other patriotic societies and citizens generally.

The following program was rendered:

Song, America, choir and audience.

Invocation, Rev. Beauchamp.

Song, O, Columbia, the Gem of the Ocean.

Reading by Commander Goff.

The First Salute to the Flag.

Reading by Mrs. Ansbaugh, Old Glory Where Did You Get Your Name?

Recitation by Mrs. Stout, Here comes the Flag.

Special music, Hail to Old Glory, by the choir.

Recitation by Miss Goldie Grove, Our Flag.

Miss Aileen Moon, Tubal Cain.

Miss Priscilla Peckham, Lincoln and the Flag.

Reading by Mrs. Hill and Mrs. Stillwell appropriate to the occasion.

A symphony on the flag by Mr. J. O. McNew.

Remarks by Revs. Northrop and Kenney.

Recitation by Mr. L. Q. Bower concluded by audience singing the Star Spangled Banner. The closing number was a special selection by the choir, Beyond the Vale.

In behalf of the W. R. C. the committee extends sincere thanks to all who assisted in the program, both in a literary way and in the special music.

SOLUTION FOR QUESTION OF ROAD MATERIALS

While two petitions are in preparation to be sent to the county commissioners for different kinds of paving maerial, each side advancing reasons for their particular kinds of paving material, it might not be amiss to suggest to the good roads committees that instead of continuing the apparant wrangling about whether to use brick or asphalt, the question of cost entering into the matter, that the commissioners be requested to ask for bids on the kinds of roads in question before calling an election.

If a contract is awarded for a certain kind of material, subject to the voting of bonds it could be assured the tax payers that they would get exactly what they vote for in that bond issue.

Some advocates of sand-asphalt, or other than brick roads have advised the Tribune that they would favor grouted brick if the thirty-seven miles could be constructed for $275,000, but they do not think this possible. On the other hand the brick advocates state that they can have the work done for that sum of money. The matter can be settled as suggested within thirty days, then the bond issue will be sure to carry.

Claud F. Johnson.

J. M. WILSON CARRIES JOYFUL NEWS TO SEMINOLES

J. M. Wilson Jr. of Kissimmee, the Seminole Indians' friend, and Capt. Montez, of Gotha, started out by auto for the Everglades on Tuesday last. Mr. Wilson goes on a peace mission to the Seminoles to convey to them the glad tidings that the state government has appropriated some 98,000 acres of land in Monroe county for the exclusive use of the Indians, further, that the land is now open for the Indians

ENGINEERS FIGHT

Late last Friday afternoon a fight occurred in the office of W. A. Ginn, consulting engineer for the city between that gentleman and W. C. Caradine, of Memphis, who was engineer in charge of the work for the sewerage contractors. Neither of the men would tell what happened, but when the marshal took Caradine in charge it was found that Ginn had several "bumps" on his head, which resulted in his confinement to his home for a day or two. When the matter was taken to Prosecuting Attorney Crawford at Kissimmee, Caradine's bond was fixed at $500, which he gave that night. Saturday Ginn made an affidavit that Caradine attacked him with intent to kill and had him re-arrested and the bond was placed at $1,000. No bond being obtained Caradine was confined to the county jail, where he remains at the present time. Ginn was up Sunday and by Tuesday resumed his work with no apparent bad effects of the affair.

The Garrison of the Army and Navy Union gave an ice cream social to the lady comrades of the Elsie P. McElroy Auxiliary No. 17 on Monday afternoon, June 18, at the Masonic hall. The boys proved themselves equal to the occasion and waited on the ladies in fine order. There was an abundance of ice cream and cake and it was much enjoyed by all. A rising vote of thanks was given the Garrison by the ladies before adjourning.

One Who Was There.

Mr. T. F. VanArsdale and wife left this morning for Abbotsford, Wis., on a visit for the rest of the summer.

FENOLE

During these stirring times when one hears and reads about War, War, War; it's a mighty good idea to "Watch and Spray." Yes, make war right at home, go after the insects that are invading your home, by night and day, annoying you and destroying your goods,—for that matter threatening your very life. Go after these pests with a "Gun" loaded with FENOLE, and make the Ants, Flies, Fleas, Mosquitoes, Roaches, etc. Understand that your home is the "Barred Zone."

Fenole is sold in your town by

DEATH OF OLD VETERAN AT MIFLINVILLE, PA.

Jacob M. Pifer Reponds to the Last Roll Call—Spent Last Winter In St. Cloud

We clip the following from the Berwick, Pa., Enterprise of June 11. The subject of the notice was well known in St. Cloud having spent the whole of last winter here with his son, the proprietor of the Pifer House. He first came to St. Cloud in 1909, and had been coming with more or less regularity ever since. He was a property owner here, but is said to have disposed of his holdings. No particulars are given of his death, but a later number of the same paper in speaking of the funeral services uses the head line "Funeral Service of Drowning Victim."

"The death of Jacoob M. Pifer, a well known resident of Miflinville, occurred at the home of his son, John, at Miflinville, Saturday morning. Aged 82 years December 2nd last, his death was due to the infirmities of old age.

Born in Northumberland County Mr. Pifer has been a resident of Miflinville for the last forty years, where for many years he conducted a tailor shop. His first wife, Miss Katherine Shaffer, died fifty-one years ago, and the death of his second wife, formerly Mrs. Kate Fry, occurred about seven weeks ago. He was in the South with his son, Jerome Pifer of, Nescopeck, until April. Surviving him are his son, Jerome, of Nescopeck, and Mrs. Jacob Oliver, by his first wife, and the following children by his second wife: William, of Shickshinny; John of Miflinville and Grant, of Watsontown.

"He was a veteran of the Civil war, serving with the light artillery having four years of service. He was a member of the G. A. R. at St. Cloud, Florida, and the Odd Fellows at Weatherly. He was a member of the Lutheran church."

ANNUAL MEETING OF STATE PRESS ASSOCIATION AT JAX

Matters of Importance to be Considered and Full Attendance Is Hoped For

The thirty-eighth annual session of the Florida Press Association is scheduled to be held in the Board of Trade rooms at Jacksonville, on June 28, 29 30, 1917, as we see by an announcement from S. J. Triplett, acting president, and T. J. Appleyard, secretary.

It will be a strictly business session at least during the day, and the high jinks, if any are to be pulled off, will occur at night, when the tired editors may be in a mood for relaxation.

The business matters for consideration will be such as pertain to advertising, subscription and paper supply. The Intertype people propose to make an exhibit that will be worth seeing.

The railroads promise special rates, which will be made public in the near future.

Application blanks for membership can be had of the secretary at Tallahassee, or at the meeting.

Every editor in Florida should belong to the association and make it a point to attend the meeting.

Strike while the iron is hot—but wait for your temper to cool.

THREE HUNDRED CARS CATTLE GOING TO CHICAGO

Deer Park Stock Company Shipping 11,000 Head to Make Room For Better Grade Tick-Free Cattle

Within the past two weeks there have been shipped from Deer Park, via the Union Cypress Company railway, two trains loaded with cattle that were raised on what is known as the Hopkins ranch; and as rapidly as other cars can be furnished eight more trains will go forward. These cattle are being shipped to the Agar Packing Company at Chicago and are better than the ordinary run of range cattle, for the reason that Messrs. Hopkins and Donegan have paid considerable attention to the breeding of their stock for the past ten years. They have been able to do this by placing the 104,000 acres of land owned by Mr. Hopkins under fence and by paying more or less attention to the details of the business.

But now that these men have organized the Deer Park Stock Company they have determined to carry on the live stock business on more progressive lines than ever before, and that is why they are making the present clean-up on this ranch of all sizes and grades of cattle. The stock is all dipped before it is shipped and after every animal has been removed from this ranch no other will be permitted to enter it again until the land has been freed from the tick, through the starvation process. Then the better grade of cattle that are now being held in reserve on another ranch will be placed on this one, entering by the way of the dipping vat route. By these improved methods the company expects to increase the value of its live stock to more than fifty per cent of the value of the present herd.

The more than 11,000 head now being shipped are in very good condition for grass-fed cattle, and the price of approximately twenty dollars a head, herd run, big and little, is not so bad; especially in view of the fact that it is worth a considerable sum to the company to be able to free the big ranch from ticks and thereby increase its earning capacity almost a hundred fold.

The shipping facilities now provided b the Uniyon Cypress Railway are also an important factor in the handling of the stock from this ranch. Heretofore the stock had to be driven across the country to St. Cloud or Kissimmee and shipped via the Atlantic Coast R. R. Now it is loaded on cars right on the ground and delivered to the East Coast Railroad at Hopkins by the train lotd. The present shipment will require upward of 300 cars, or ten trains of thirty cars each. It certainly does look like business to see these long trains loaded with cattle coming across the prairie and into the busy mill town of Hopkins.—Melbourne Times.

OHIO ASSOCIATION

The Ohio Association met in Rev G. W. Brown's church in West St. Cloud, June 13th. Assembled in the morning for an all-day meeting, and spending the time before dinner in a social way, visiting and becoming acquainted. Tables were arranged at one side of the church, where dinner was served. It is needless to describe a Buckeye dinner. Suffice it to say that nothing was lacking. Full justice was done to the feast and after the dinner the church was arranged for the program, which was as follows:

Called to order by Rev. Brown and opened with "America.

Talk by the president.

A rising vote of thanks was given Mr. A. S. Cole for the gift of a gavel to the association.

Minutes of previous meeting read and approved.

Reading of resolutions of respect for our late brother comrade, Dr. Albert Dunlap; also a history of his life.

Notice was taken of the death of our sister, Mrs. Wm. Empson, and of our brother comrade, John Glen, and committees were appointed to draw up resolutions of respect to be read at our next meeting.

The following social program followed:

A chain program was decided on, each speaker to choose the one to follow with a speech or song, etc.

Mrs. Matthews told a story of an empty box and an empty barrel.

Mr. Holden said he hoped Ohio was planning to do better in the temperance cause; he expected to go and find out and return to report.

Mr. Davidson, of Cleveland, but now from Cuba, was asked to tell some things about Cuba; he may at our next meeting.

Reading by Mrs. Stillwell.

Talk, "What our Red Cross is doing and planning to do." We now have over thirty members.

Reading, "The Man Who Quits," Mrs. Stranton.

Recitation, "The Brown Family welcomes the new pastor," Mr. McKay.

Song; "Good News For All, Good News For Me," Mr. Somers.

Talk, "Mission Work in India," Mr. Beauchamp.

Recitation, "When Brother Will Became a Boy," Goldie Grove.

Talk, "Practical Economy a Good to Result From the War," Mr. Northrop.

Mrs. Northrop said: "Are all of us going to grub and dig and economize and dig and grub to have food enough to feed ourselves and some one else, then be willing that our nation shall allow enough food stuff to be destroyed for the manufacture of juice that damns the users, which would feed seven million of people for a year?"

Song, Columbia the Gem of the Ocean.

Closed with a prayer by Reverend Brown.

Our next meeting is Oak Grove Park, July 1.

We then formed a group outside the church, where Mr. McKay took our pictures, then we all had a feast of watermelons, which were delicious.

The guests then departed having had a delightful time and all thanking Mr. and Mrs. Brown for their splendid hospitality.

Mr. Brown took many of the guests home with his auto and all enjoyed

250-Pound Pigs

With corn above 50 cents hogs eat their heads off very quickly. The hog that takes two or three months to get on full feed never brings you a profit. When you are ready to put your shoats on feed, begin with the B. A. Thomas Hog Medicine. Use regularly and watch your shoats round out in nine months—hogs going well over 200 pounds and as high as 240 pounds. Figure the average feeding and you will see why the B. A. Thomas medicine is good investment. Try feeding out your hogs on this plan and if you are not more than pleased, we will refund the cost of the medicine. —H. C. Hartley, St. Cloud, Fla. 41-4t

VETERAN'S ASSOCIATION

The Veterans' Association met at 2 p. m., June 17th, President Kenney presiding. Opened by singing America. Prayer by Rev. Beauchamp, Chaplain Westcott being on leave of absence. Song by choir. Notice of various state association meetings were read. Collection for hall expenses.

Comrade Wentworth made some very appropriate remarks on the war and buying of Liberty Bonds. President Kenney remarked that some bought bonds for their babies, and he would if he ever got one in his family.

Song by the choir.

After some talk on various subjects the meeting was turned over to Mrs. Clara Kenney, in charge of the social hour.

The first number on the program was a reading by Kibby.

Reading by Captain Sheldon—a magazine article on the situation in Old Mexico.

A reading by Miss Chase.

Rev. Santee recited a new version of "The Old Oaken Bucket and finished with a short patriotic prohibition address.

Duet by Tommy Walters.

Music by J. L. Dingle, with selections on his accordeon.

A short speech on prohibition, by Comrade Spaulding.

Others of the audience made some appropriate remarks, but I was unable to get their names.

Everyone did well. The audience expressed their appreciation by hearty applause for each and every selection. Mrs. Clara Kenney, as usual, was up to her part.

After singing The Star Spangled Banner the meeting adpourned until next Saturday. J. L. Brown.

"Don't suffer from train headaches"

When traveling, attending a Theatre or some Social Function, or if Shopping, don't forget to have

DR. MILES'
-Anti-
PAIN PILLS

with you. They are invaluable for Headache and all other Pains.

25 Doses, 25 Cents.

[illegible] Lots 10, 11 and 12 of block 1, of J[illegible]s W. Lilly's Addition to Kissimmee City, as per recorded plat thereof.

Sold to satisfy said decree and costs.

Dated this the 27th day of April, 1917.

(Signed) W. J. Steed.
42-5t Special Master in Chancery.

AN ORDINANCE

An Ordinance Providing for the Purchase by the City of St. Cloud, Florida, of the Field Service and Franchise of the St. Cloud Public Utilities Company, and for the submission of said Ordinance for Approval or Rejection to the Voters of said City, and Providing for the Calling of an Election for the Submission of said Question to the said Voters.

Be It Ordained by the Council of the City of St. Cloud, Florida:

Section 1. The Mayor and Council of the City of St. Cloud, Florida, subject to the provisions of Sections 2 and 3 of this Ordinance, are hereby authorized to purchase from the St. Cloud Public Utilities Company, before the use of said city, all of the field service and franchise of the said St. Clod Public Utilities Company, being the electric light poles, wiring, transformers, scoops, shovels, bolts, insulators, creosote and everything pertaining to said Public Utilities plant, including their franchise, except the machinery and switchboards operating the same, at and for the sum of Five Thousand Five Hundred Dollars, payable as hereinafter provided.

Sec. 2. The Mayor shall as soon as practicable after the passage and approval of this ordinance issue his proclamation calling a special election for the City of St. Cloud, Florida, to be held not less than thirty days from date of said proclamation, for the purpose of submitting to the electors of said city the approval or rejection of the purchase of the field service and franchise of the said St. Cloud Public Utilities Company.

Sec. 3. The Mayor shall in his proclamation calling the election herein provided, name three electors in the City of St. Cloud, who shall act as inspectors of said election. Should any one of the electors so appointed fail or refuse to qualify the Mayor shall be authorized at any time prior to the opening of the polls to name additional inspectors. The inspectors conducting the election aforesaid shall immediately after the polls have been closed count the votes for and against the proposition of the purchase submitted, and immediately certify the result of same to the City Council.

Sec. 4. The Mayor and Council of the City of St. Cloud, subject to the approval of the proposed purchase by the voters at the election herein provided for, are hereby authorized and instructed to enter into a contract with the St. Cloud Public Utilities Company providing for the purchase of the field service and franchise of the St. Cloud Public Utilities Company, and the terms of payment of said contract shall be as follows:

One thousand dollars at the time the city assumes charge and and management of the said Public Utilities plant, and the sum of one thousand dollars to be paid each year thereafter for a period of four years, and the sum of five hundred dollars to be paid the fifth year after the city assumes charge of said plant; said deferred payments to bear interest at the rate of six per cent per annum.

Sec. 5. If the result of the election provided for herein be against the proposed purchase of the field service and franchise of the St. Cloud Public Utilities Company, then this ordinance shall be null and void.

Sec. 6. This ordinance shall take effect upon its passage and approval.

Read a first and second time and by unanimous consent read the third time and passed in open session of the council, this 14th day of June, A. D. 1917.

Levi Shambow,
Prest. of Council.

Attest:
Fred B. Kenney, City Clerk.

Approved this 14th day of June, 1917.

Levi Shambow,
Mayor of the City of St. Cloud, Fla.
43-5t

NOTICE OF ELECTION

In compliance with the law in such cases made and provided, it is hereby announced and declared that an election will be held at St. Cloud, Osceola County, Special Tax School District No. 1, on Tuesday, June 26th, A. D. 1917, for the purpose of determining who shall serve as school trustees of said district for two years next after the election, and to fix the number of mills of district school tax to be levied and collected annually for the said two years.

The following were appointed to act at said election: J. K. Conn, L. W. Farris, Lynn Daugherty, inspectors; J. I. Cummings, Clerk.

Done by order of the Board of Public Instruction, Osceola County, Florida, this 7th day of May, A. D. 1917.

W. C. Bass.
Attest: Chairman.
C. E. Yowell, Supt. 39-5t

NOTICE OF ADOPTION

To whom it may concern:

That on the 30th of July, 1917, at 10 o'clock A. M., at DeLand, Florida, William H. Millsom and Sallie Millsom, his wife, will make application, by petition to the Hon. James W. Perkins, Judge of the 7th Judicial Circuit Court, for the legal adoption of one Albert Harris, a male infant of 3 years. That said petition will be heard at that time, or as soon hereafter as the same can be by the judge heard.

WILLIAM H. MILLSOM.
SALLIE MILLSOM.
S. D. DECKER, Attorney. 42-5t

MAYOR'S PROCLAMATION

Whereas, the council of the city of St. Cloud, Florida, at a special meeting called and held for the purpose of considering and taking action upon a proposed ordinance providing for the purchase of the field service and franchise of the St. Cloud Public Utilities Company, held June 14, 1917, passed an ordinance which has been approved by the mayor, authorizing the mayor to call a special election for the city of St. Cloud, Florida, to be held for the purpose of submitting to the electors of said city for approval or rejection the purchase of the field service and franchise of the St. Cloud Public Utilities Company for the sum of Five Thousand Five Hundred Dollars.

Now, therefore, I, Levi Shambow, Mayor of the city of St. Cloud, Florida, under and by the authority vested in me by Chapter 1079 of the General Statutes of Florida, and Chapter 7237 of the Laws of Florida approved June 1st, 1915, and the ordinance of St. Cloud, Florida, passed June 14th, 1917, do hereby call a special election of the City of St. Cloud, Florida, to be held Saturday, July 21st, 1917, for the purpose of submitting to the electors of said city for approval or rejection the purchase of the field service and franchise of the St. Cloud Public Utilities Company for the sum of Five Thousand Five Hundred Dollars.

For the purpose of holding said election I hereby appoint the following inspectors:
W. C. Russell,
P. W. Hall,
W. G. King.

In witness whereof I have hereunto set my hand and caused to be affixed hereto the corporate seal of the City of St. Cloud, Florida, this 14th day of June, A. D. 1917.

Levi Shambow,
Mayor of the City of St. Cloud.

Attest:
Fred B. Kenney,
City Clerk. 43-5t

HOW SHALL WE PAY FOR THE WAR?

A Constructive Criticism on the House Revenue Bill.

LOANS BETTER THAN TAXES

Five Reasons Why Excessive Taxes at the Outset of War Are Disadvantageous—Great Britain Example Worthy of Emulation—How the Taxes Should Be Apportioned.

By EDWIN R. A. SELIGMAN,
McVickar Professor of Political Economy, Columbia University.

On May 23, 1917, the House of Representatives passed an act "to provide revenue to defray war expenses and for other purposes." In the original bill as presented by the Committee of Ways and Means, the additional revenue to be derived was estimated at $1,810,420,000. The amendment to the income tax, which was tacked on to the bill during the discussion in the House, was expected to yield another $40,000,000 or $50,000,000.

In discussing the House bill, two problems arise:

I. How much should be raised by taxation?

II. In what manner should this sum be raised?

I. How Much Should Be Raised by Taxation?

How was the figure of $1,800,000,000 arrived at? The answer is simple. When the Secretary of the Treasury came to estimate the additional war expenses for the year 1917-18, he calculated that they would amount to some $6,600,000,000, of which $3,000,000,000 was to be allotted to the allies, and $3,600,000,000 was to be utilized for the domestic purposes. Thinking that it would be a fair proposition to divide this latter sum between loans and taxes, he concluded that the amount to be raised by taxes was $1,800,000,000.

There are two extreme theories, each of which may be dismissed with scant courtesy. The one is that all war expenditures should be defrayed by loans, and the other is that all war expenditures should be defrayed by taxes. Each theory is untenable.

It is indeed true that the burdens of the war should be borne by the present rather than the future generation; but this does not mean that they should be borne by this year's taxation.

Meeting all war expenses by taxation makes the taxpayers in one or two years bear the burden of benefits that ought to be distributed at least over a decade within the same generation.

In the second place, when expenditures approach the gigantic sums of present-day warfare, the tax-only policy would require more than the total surplus of social income. Were this absolutely necessary, the ensuing havoc in the economic life of the community would have to be endured. But where the disasters are so great and at the same time so unnecessary, the tax-only policy may be declared impracticable.

Secretary McAdoo had the right instinct and highly commendable courage in deciding that a substantial portion, at least, of the revenues should be derived from taxation. But when he hit upon the plan of 50-50 per cent., that is, of raising one-half of all domestic war expenditures by taxes, the question arises whether he did not go too far.

The relative proportion of loans to taxes is after all a purely business proposition. Not to rely to a large extent on loans at the outset of a war is a mistake.

Disadvantages of Excessive Taxes.

The disadvantages of excessive taxes at the outset of the war are as follows:

1. Excessive taxes on consumption will cause popular resentment.

2. Excessive taxes on industry will disarrange business, damp enthusiasm and restrict the spirit of enterprise at the very time when the opposite is needed.

3. Excessive taxes on incomes will deplete the surplus available for investments and interfere with the placing of the enormous loans which will be necessary in any event.

4. Excessive taxes on wealth will cause a serious diminution of the incomes which are at present largely drawn upon for the support of educational and philanthropic enterprises. Moreover, these sources of support would be dried up precisely at the time when the need would be greatest.

5. Excessive taxation at the outset of the war will reduce the elasticity available for the increasing demands that are soon to come.

Great Britain's Policy.

Take Great Britain as an example. During the first year of the war she increased taxes only slightly, in order to keep industries going at top notch. During the second year she raised by new taxes only 9 per cent. of her war expenditures. During the third year she levied by additional taxes (over and above the pre-war level) only slightly more than 17 per cent. of her war expenses.

If we should attempt to do as much in the first year of the war as Great Britain did in the third year it would suffice to raise by taxation $1,250,000,000. If, in order to be absolutely on the safe side, it seemed advisable to increase the sum to $1,500,000,000, this should, in our opinion, be the maximum.

In considering the apportionment of the extraordinary burden of taxes in war times certain scientific principles are definitely established:

How Taxes Should Be Apportioned.

(1) The burden of taxes must be spread as far as possible over the whole community so as to cause each individual to share in the sacrifices according to his ability to pay and according to his share in the Government.

(2) Taxes on consumption, which are necessarily borne by the community at large, should be imposed as far as possible on articles of quasi-luxury rather than on those of necessity.

(3) Excises should be imposed as far as possible upon commodities in the hands of the final consumer rather than upon the articles which serve primarily as raw material for further production.

(4) Taxes upon business should be imposed as far as possible upon net earnings rather than upon gross receipts or capital invested.

(5) Taxes upon income which will necessarily be severe should be both differentiated and graduated. That is, there should be a distinction between earned and unearned incomes and there should be a higher rate upon the larger incomes. It is essential, however, not to make the income rate so excessive as to lead to evasion, administrative difficulties, or to the more fundamental objections which have been urged above.

(6) The excess profits which are due to the war constitute the most obvious and reasonable source of revenue during war times. But the principle upon which these war-profit taxes are laid must be equitable in theory and easily calculable in practice.

The Proposed Income Tax.

The additional income tax as passed by the House runs up to a rate of 60 per cent. This is a sum unheard of in the history of civilized society. It must be remembered that it was only after the first year of the war that Great Britain increased her income tax to the maximum of 34 per cent., and that even now in the fourth year of the war the income tax does not exceed 42½ per cent.

It could easily be shown that a tax with rates on moderate incomes substantially less than in Great Britain, and on the larger incomes about as high, would yield only slightly less than the $532,000,000 originally estimated in the House bill.

It is to be hoped that the Senate will reduce the total rate on the highest incomes to 34 per cent, or at most to 40 per cent, and that at the same time it will reduce the rate on the smaller incomes derived from personal or professional earnings.

If the war continues we shall have to depend more and more upon the income tax. By imposing excessive rates now we are not only endangering the future, but are inviting all manner of difficulties which even Great Britain has been able to escape.

Conclusion.

The House bill contains other fundamental defects which may be summed up as follows:

(1) It pursues an erroneous principle in imposing retroactive taxes.

(2) It selects an unjust and unworkable criterion for the excess-profits tax.

(3) It proceeds to an unheard-of height in the income tax.

(4) It imposes unwarranted burdens upon the consumption of the community.

(5) It is calculated to throw business into confusion by levying taxes on gross receipts instead of upon commodities.

(6) It fails to make a proper use of stamp taxes.

(7) It follows an unscientific system in its flat rate on imports.

(8) It includes a multiplicity of petty and unlucrative taxes, the vexatiousness of which is out of all proportion to the revenue they produce.

* * * * * * *

The fundamental lines on which the House bill should be modified are summed up herewith:

(1) The amount of new taxation should be limited to $1,250,000,000—or at the outset to $1,500,000,000. To do more than this would be as unwise as it is unnecessary. To do even this would be to do more than has ever been done by any civilized Government in time of stress.

(2) The excess-profits tax based upon a sound system ought to yield about $500,000,000.

(3) The income-tax schedule ought to be revised with a lowering of the rates on earned incomes below $10,000, and with an analogous lowering of the rates on the higher incomes, so as not to exceed 34 per cent. A careful calculation shows that an income tax of this kind would yield some $450,000,000 additional.

(4) The tax on whisky and tobacco ought to remain approximately as it is, with a yield of about $230,000,000.

These three taxes, together with the stamp tax at even the low rate of the House bill, and with an improved automobile tax, will yield over $1,250,000,000, which is the amount of money thought desirable.

The above program would be in harmony with an approved scientific system. It will do away with almost all of the complaints that are being urged against the present. It will refrain from taxing the consumption of the poor.

It will throw a far heavier burden upon the rich, but will not go to the extremes of confiscation. It will obviate interference with business and will keep unimpaired the social productivity of the community.

It will establish a just balance between loans and taxes and will not succumb to the danger of approaching either the tax-only policy or the loan-only policy. Above all, it will keep an undisturbed elastic margin, which must be more and more heavily drawn upon as the war proceeds.

HON. N. C. BRYAN GIVES ACCOUNT OF STEWARDSHIP

From the Valley Gazette we clip the following interview with Hon. N. C. Bryan, Osceola county's representative to the legislature:

Hon. N. C. Bryan, representative in the legislature from Osceola county, and who was [illegible] the leaders of that body in the session just closed, returned home from Tallahassee a few days ago. Mr. Bryan made a splendid record as a lawmaker and may well feel proud of his achievements.

Mr. Bryan thinks the session just closed was a decidedly constructive one.

Referring to the session, he said: "I am well placed as to committees as I am chairman of the temperance committee, and on education, convicts, public lands and fisheries.

"I tried to meet with all these and when the house was not in session I was kept busy with committee work. I tried to be faithful in attendance on the house sessions and missed only one roll call. That was during the first of the afternoon sessions and I was busy in a committee at that time.

"I tried to be active in temperance matters. I introduced and passed in the house six temperance bills and assisted in passing three others that were introduced by other members.

"I introduced and passed a bill giving the Seminole Indians 90,000 acres of land for a reservation.

"I passed a bill compelling the appointing of inspectors of marks and brands in all stock counties, and, in fact, was successful in most of my efforts."

He continued: "The legislature, as a whole, was constructive, though only a few general laws were passed—nothing like the usual number passed by other legislatures.

"There were four good roads bills and four education bills, all of which in my opinion, will be beneficial. One bill was with reference to the convicts which is a step toward the abolishment of the leasing of convicts.

"The primary bill I voted against for the reason that after the House and Senate could not agree a new bill was presented the last day. I did not like all of the provisions and thought best to cast my vote against it.

"We passed on the whole 125 measures, most of which will be good for the state, notably the $100,000 appropriation for the eradication of the citrus canker and another appropriation of $100,000 to provide free serum for the eradication of hog cholera.

The legislature was liberal toward colleges for higher education and appropriated money for maintainance for the next two years. Also allowed buildings which were badly needed.

I regret the legislature did not carry out my ideas regarding a new insane asylum for the lower part of the state. Another legislature will, in all probability, have information concerning the conditions which will result in new buildings.

"Some of the sessions were quite stormy as some partisan politics were injected into it, but on the whole I think the state has been benefited by the measures passed."

FLORIDA UNIVERSITY SUMMER SCHOOL

Not only has the University summer school a large faculty and a more varied and extensive course, but it also has a longer term than heretofore. The term will last ten weeks this time. The student body last summer voted a memorial to the legislature for a longer term on the ground that the additional benefit to the teachers attending would more than pay the additional cost. The legislature generously provided for the longer term and the larger scope of work. It is now incumbent upon the teachers of the state to prove the genuineness of their belief by attending these ten weeks and by devoting their best efforts to an increase of their learning and teaching power. In ten weeks a great deal can be accomplished. It is the sense of the nation that instead of slackening attention to educational endeavor there should be a tremendous tightening of effort; for trying times ahead will demand the greatest wisdom and devotion of the coming generation. If failure comes from lack of knowledge in the future, no little of the blame will justly fall upon the teachers of today. The teachers must now go into intensive training as well as the men who charge the bayonet oversea.

In connection with the regular summer season there will be an institute and conference for county superintendents, county and local school board members and high school principals. This conference will begin Monday, July 3, and close Saturday, July 28. A number of the leading educators of the country have already been secured for this meeting, among them our own state superintendent, Hon. W. N. Sheats; Hon. J. L. McBrien, federal specialist in rural school extension; Hon. J. F. Muermann, federal specialist in rural education; Hon. C. H. Lane, federal chief specialist in agricultural education, and State Superintendent Feagan of Alabama. There will be several other noted men added to this list. A detailed program will be published in a short time.

Capt. Robinson of the United States army medical corps is at the University examining the applicants for service in the ambulance corps of France. Twenty-nine men have been accepted for this, including students of this university, the university chef, a number of alumni, Rev. Russel Carleton and L'Engle Hartridge of Jacksonville. The applicants are continuing to enlist and, from all indications, the University of Florida will succeed in contributing materially to the ambulance work of the war.

Scrawny Calves

What makes a calf scrawny—off its feed? Germs—parasites—in the intestines. Why not free them of this trouble? If you will give the calf some B. A. Thomas Stock Remedy in its feed, within a week you will see it brighten up and in four or five weeks you won't know the calf. Costs you but a few cents and we will refund that if its doesn't do as we say. —H. C. Hartley, St. Cloud, Fla. 41-4t

Red Cross Week.

* * *

But the Red Cross is strong,

* * *

More than two million in America,

* * *

In every nation of the civilized world it is known.

* * *

Pershing is in France, to save France from Per(i)shing.

* * *

Germany's anxiety for peace is only equalled by her anxiety to have it on her own terms.

* * *

Looks as if the famous Hindenburg line was preparing for another "strategic retreat to victory."

* * *

Kissimmee voted for the bond issue of $100,000 for good roads by a large majority. Good for Kissimmee.

* * *

"Legislative usurpers" is the pleasing title that the Punta Gorda Herald applies to the members of the defunct legislature.

* * *

If you did not secure a Liberty Bond you can get even with your conscience by subscribing to the Red Cross fund.

* * *

Wherever there is human suffering, whether from war, pestilence or famine, from fire or flood, the Red Cross is there to lessen the suffering.

* * *

The farmer in these days is getting all the credit that has been denied him for many years. And the Florida farmer is getting his full share of the cash pot.

* * *

A Want Ad of next year: Wanted—A quiet home for a few kings and kinglets where they can meditate in peace on their past greatness. Address Wm. Hohenzollern, Berlin.

* * *

The divinity that doth hedge a king, got a slap in the face when Constantine of Greece got his walking papers from the Allies. That same "divinity" is going into the waste basket with a lot of other worn-out doctrines.

* * *

Kid of eight months buys a bond "through his grandfather" and gets his name and picture in the papers, and is commended for his "patriotism." Paraphrasing Madame Roland, Oh, Liberty (Bond), what slush is committed in thy name.

* * *

Now that the rains have set in, look to it that no stagnant pools are left about your place. Have no unscreened tubs or barrels of water, and no old tin cans to catch and hold water. Such places are mosquito breeders, and mosquitoes spread disease.

* * *

Cotton has reached the 25c level and is entitled to be called "King" once more. And only two years ago everybody was entreated to "buy a bale" and help the poor farmer. If it continues to advance it will be a sign of the plutocrat to wear cotton socks.

* * *

To Lambright and Huffaker: We know a bathing beach where the ladies enter the water in puris naturalibus.—Manatee Banner. For the love of Mike don't tell those gay old boys where it is, or there will be two vacancies in editorial rooms in Tampa.

* * *

It is astonishing what an affection for rich old Uncle Sam the nations across the water have suddenly conceived. With outstretched hands (palms up) they come from Britain, from France, from Russia, Italy, Belgium and even from Japan. We suspect none of them would refuse a "hand-out."

* * *

We acknowledge the receipt of an invitation to attend a barbecue at Bunnell, July 2, in celebration of Florida's Baby County. It is a promising youngster, Flagler by name, and we regret that other duties prevent our attending the celebration of its first birthday. May it have a thousand more, and then some.

* * *

There seems to be some fear on the part of farmers that if they greatly increase their acreage of crops the speculators will take advantage of the fact that they will have to sell in the fall and will not pay them a fair market value. If they were assured now by the bankers and business men that warehouse facilities would be provided so they could store their products for a time and secure substantial advance on their market value until they are ready to sell, it would act as a very great stimulus in bringing about increased production.

At Union Springs, Ala., the bankers have authorized a publication in the papers advising farmers to raise food stuffs, corn, velvet beans, peanuts and hay, and when delivered in merchantable condition in that city, they will store them in warehouses and advance on these products 66 2-3 per cent of their market value. Can not bankers and business men in this territory do the same?

* * *

Sherman characterized war and gave it a name. But that was fifty years ago, and war as Sherman knew it, was no more like war, as made by the Germans, than it was like the bridge parties of the modern society dame. Language utterly fails in any attempt to describe the atrocities perpetrated by the merciless Teutons upon every country which their unparalleled organization and absolute preparedness has enabled them to overrun. The Kaiser is an inhuman monster, and seems to have imbued his people with his greedy lust for power, and absolute disregard for the rights of anyone who is unable to defend their rights with the mailed fist. The safety of mankind demands the complete extermination of the Hohenzollerns, root and branch. They should be wiped off the earth. Then let the German people organize a government of their own, founded on the eternal principles of justice and liberty to all, and forever free from the domination of a monster with "a withered hand, a running ear, and a soul that stinks."

School District Election

Don't forget that an election is called for Special Tax School District No. 1, which means St. Cloud, for the purpose of determining who shall serve as school trustees for the coming two years, and also to fix the number of mills of district school tax to be levied and collected annually for the said two years. The election is to be held on Tuesday, June 26, and J. K. Conn, L. W. Farris and Lynn Daugherty have been appointed as inspectors, and J. I. Cummings as clerk.

There are no more important elections than those connected with the management of the schools, and perhaps there are none more generally slighted. Every parent, especially, is vitally interested in the schools, and should show his interest by attending all meetings that have to do with their management. And every taxpayer, even though he may have no children attending school is also interested in seeing that the money collected in taxes is used mildly and economically.

Aid the Red Cross

By official proclamation of President Wilson, head of the National Red Cross organization, this is Red Cross Week, and a campaign has been inaugurated to raise $100,000,000 for the support of this most necessary organization. With an over subscription of more than eight hundred millions to the Liberty Loan, it should not be difficult to raise a paltry hundred millions for as worthy a charity as the Red Cross has proven itself to be.

Wherever human suffering exists, whether it be an earthquake in San Francisco or Sicily, or flood in China or the Mississippi Valley, or a world war like the present, the Red Cross is promptly on the spot, doing its best to alleviate that suffering. But, never since the Red Cross was organized in 1864 have its tasks been so tremendous, or so urgent. With millions of men engaged in killing or wounding one another, with millions more of women and children constantly on the verge of starvation, with their homes destroyed, and their country made a desert: with a million or more of our own American boys on the firing line as soon as it can be accomplished, it benooves every true American, every man or woman with an atom of sympathy in their heart, to respond liberally and generously to this appeal.

The local organization is under the leadership of Mrs. Marion Wetherbee, herself a Red Cross nurse of extensive experience in Australia and South Africa during the Boer war. The ladies belonging to it are already busy as bees making bandages, comforts and hospital supplies, which will all be needed in the near future. It is one of the ways in which the women of the nation can serve as effectively as the soldiers in the field. We do not know the plans of the local organization, but if they should make an appeal for aid in any direction, either for funds or supplies, we bespeak for them a prompt and energetic response.

Some Things St. Cloud Lacks

St. Cloud is called the Wonder City. And the name is not inappropriate, when you consider that less than a decade ago the site of the present busy city was the resort of the roaming rooting razor-back and the wide-horned, predatory steer. In less than ten years there has been builded here a city with its business houses, its churches and schools, its electric lights and waterworks. Paved streets will be ours in the near future. All these achievements are matters to be justly proud of. We are entitled to point with pride to the past and say, "See what we have done." But there is danger in too much self-congratulation. In contemplation of what we have done we are apt to blink the responsibilities of the future. We are inclined to settle back in snug contentment, and let the other fellow do it. And the other fellow is actuated by the same thought, and it is never done.

There is much to be accomplished before St. Cloud is entitled to settle herself down and say "It is finished." It is the ambition of every city in Florida to become a tourist town. The money which our Yankee friends leave behind them every winter in exchange for our sunshine, with a modicum of grits and bacon thrown in, makes a very acceptable addition to our exchequer. But there is sharp competition for the honor (and incidental profit) of entertaining these winter visitors. There are many features which enter into this competition. The natural attractivenss of the town; its location with regard to the sports of hunting and fishing and boating; the character and condition of its streets and walks; its schools and churches and social privileges; all these enter into the decision. Some of these features St. Cloud has; in others it must be confessed she is lamentably deficient.

We have a beautiful lake, to be sure, but it is very much as nature made it untold ages ago. Little in the way of improvement has been done by man. We should have a boulevard not only on the city's lake front, but running entirely around the lake. It is pleasing to know that one is already contemplated by private enterprise and the preliminary steps have already been taken. It should be connected with the city by two or three well paved streets. That is our greatest natural asset. It should be utilized to the limit.

An objection to St. Cloud as a winter residence place, with many is its inaccessibility. Two dinky trains per day, with papers from twelve to twenty-four hours old, does not appeal to live men and women. It is good to know, also, that this objection is in a way to be eliminated. The Melbourne-St. Cloud road, for which bonds are about to be voted, will put St. Cloud on a direct route from the Dixie Highway to the East Coast, the sothernmost route across the state, and will turn a big tide of tourist travel through our town. Every citizen who has the best interests of his town at heart should vote for the bond issue. Get the highway for auto travel, and the Interurban railway, the completion of which is promised at an early date, will take care of the balance.

Something which seriously detracts from the attractiveness of our city in the eyes of visitors, is the treeless condition of our streets. Spasmodic attempts have been made here and there to remedy this defect by the planting of eucalyptus and maple trees, and the result is to be seen in a few scraggly, unthrifty specimens. The eucalyptus has the merit of being a fast growing tree, but it possesses the demerit of being very susceptible to frost in its earlier stages. If it could be carried safely through the occasional frosts we have it would make a fine shade in a few years. The maple is not adapted to this climate, but it is rare that a fine tree is seen of this variety. But we are not compelled to go abroad for our shade trees. The liveoak is a magnificent tree when grown under favorable conditions, but its slow growth is an objection for city planting, where time is an important element. The water oak is not open to this objection as it is a fast growing tree and will make fine shade in a very few years. It is entirely hardy, subject to few insect pests, beautifully symmetrical in its habit of growth and altogether well adapted to city planting. People who have visited DeLand, Orlando or Bartow will realize this, and will realize further how much well-shaded streets add to the beauty and attractiveness of a city. Those pioneers of the olden days builded better than they knew when they planted the streets with trees, and conserved those which nature had placed there. The Ladies Improvement Club might take this matter in hand, and do its share in promoting a public sentiment favoring tree planting. The board of trade might take it up and help materially. The city council could well afford to offer a rebate of fifty cents per tree living after a certain time, on the taxes of the planter.

At the risk of being wearisome, and perhaps offensive, we are going to say that St. Cloud lacks something of the get-to-gether spirit. There is plenty of carping criticism, but none too much of united action. Discussion and criticism are well, and should be free and unlimited. They bring out the good and bad qualities of any proposition, but they should not be carried to extremes. When a course of action is once decided upon it should command the united support of every citizen. That alone will bring success.

DELIA ADELINE KLOCK

The subject of this sketch was born January 14, 1843, of Capt. O. J. and Hilena Soper, at Green Bay, Wis., and died at St. Cloud, Fla., June 15, 1917. Her father, Capt. O. J. Soper, was in the government service, having charge of Indian affairs at Green Bay when Indians were troublesome.

She was married May 24, 1865, at Fond du Lac, Wis., to Comrade Christian Klock, who survives her. They lived for most of their married life in the West, near Dallas, Texas, having come to this place four years ago and have a home here on Maryland avenue, between Eleventh and Twelfth street. There were no children from this union, so that it leaves another old comrade to walk life's ways alone till he, too, shall answer to the last roll call and rest from life's labors. Interment was made Saturday in Mt. Peace Cemetery, the funeral being in charge of Undertaker C. E. Carlson.

Mr. Klock served in Company K, First Regiment Wisconsin Infantry, three years and three months service.

ONLY 70,000 MORE MEN ARE NEEDED TO FILL REGULAR ARMY TO 300,000 MEN

The Cavalry, Engineers, Coast Artillery, Signal Corps and Quartermaster Corps of the regular army have already been brought to war strength.

Another 45,000 recruits are desired to complete the new regiments of infantry and field artillery.

And 25,000 additional recruits are desired at the earliest practicable date to fill vacancies in order that the war strength of 300,000 men may be maintained.

Facilities are in readiness for placing these 70,000 men in proper training.

W. C. T. U. Notes

(By Mrs. Clara Kenney)

The W. C. T. U. met at the usual time and place. After the regular opening service Mrs. Ebersole read a letter received from a convict to whom she, as one of a committee, had written. He claims justice has not been given him in imprisoning him, yet he seems very hopeful.

Realizing the peculiar condition of the ex-convict, shunned by man and given a poor chance to live an honest, upright life, Maude Ballington Booth, the great Salvation Army leader, has built several homes for them at Chicago, New York and Columbus, Ohio, where they may labor and live with the comforts of home and begin life over again.

A letter from N. C. Bryan was read in which he stated that he felt he had been instrumental in getting nine prohibition bills passed.

Our Union does not mean to be left out of anything that comes along, so we are making a Red Cross pillow. Now, we all want our names written on that pillow top and it only costs ten cents to get it there. So all members, honorary members also should bring or send their names and a dime to our secretary, Mrs. N. A. Stillwell.

I think our newspaper a pretty good medium through which we may reach the people, as already one dollar has been received in response to our plea for the needy ones, in our last communication.

Mrs. Kibbe read some statistics showing the number of women now in the different professions. Educated (and their education cost fully as much as their brothers') professional wage earners, and very many of them taxpayers but not voters.

Mrs. Northrop gave a very interesting talk on the present outlook along prohibition lines. Everyone is urged to write to the president and our members of congress, telling them we are expecting them to support prohibition as a war measure, as it is evidently the wish of their constituents. Every man and woman in Florida should send a personal letter, written in ink, or still better, typewritten, to President Wilson, Senator D. U. Fletcher and Hon. W. J. Sears, at Washington, D. C. I say written in ink because it will secure attention where a pencil will not. Please all get busy.

A note of warning is sent out to St. Cloud mothers.

Do you know where and with whom your daughter is each night? There are men of questionable character (or rather no character) who dress like gentlemen, who are trying to lead some mother's daughter to ruin via the lake front.

Mothers, are not your daughters too precious to be lost? Are you sure they are in the home nest, protected by your wings around the midnight hour? Do you want her to bring reproach upon you?

The next meeting will be held on July 16, in Oak Grove Park. Leaders, who are our honorary members will then tell us "How can the government be supported without revenue from the liquor traffic?" Everybody invited.

WOMAN'S RELIEF CORPS

L. L. Mitchell W. R. C. No. 12 was opened in due form June 1th at 2 p. m., with the president, Anna Ansbaugh, in the chair. At roll call four officers were absent and vacancies were soon filled. Officers' charges were omitted. Mrs. Martha and Marion Jennings were elected to become members of our order by transfer. Next was the initiation of Mrs Catherine Mauk, after which the conductor and assistant conductor proceeded to drape the charter in memory of our deceased members, Mrse. Hulda Miller and Mrs. Gertrude Maine. It is a very sad and impressive ceremony.

There were forty members present. Quite a number of the comrades met with us and seemed to enjoy it.

As this was Flag Day the order of business was brought to a close and the audience went to the G. A. R. hall and listened to a very interesting program given under the auspices of the Daughters of Veterans. President Clara Reynolds presided.

Emma L. Ralls,
Press Correspondent.

Our National Strength

The Nation's might is influenced by its every citizen. Patriotism is for all.

And one of its practical forms is intelligent, individual effort that develops collective financial strength—so important a factor in National prosperity.

Conservatism upon the part of the individual—the building of a surplus—is essential to both national and personal protection.

The Officers of this Institution stand for AMERICA FIRST—and all the time.

A safety deposit box in our fire and burglar proof vault is the most secure place for your valuables.

Osceola County, Florida.

Mr. J. A. McCarthy can claim admission to the order of Summer Widowers, his wife having departed last week for a visit with old friends in Delhi, Ind.

Remember, we are doing our bit. Are you? Red Cross Week at Durham's. 43-1t

Mr. and Mrs. P. E. Morgan were called last Saturday to the bedside of Mrs. Morgan's father, Comrade Jas. Buchanan, who is seriously ill at his home in Brownstown, Ill.

When you buy at Durham's you are contributing to the Red Cross work. DO IT NOW. 43-1t

Mr. and Mrs. E. E. Ely left Saturday morning via the automobile route for Trenton, N. J., where they will spend the summer, returning in the fall to their St. Cloud home.

Look for our ad in this paper. It will surprise you. Durham's Department Store. 43-1t

Mr. and Mrs. C. K. Hendrix, of New York avenue, left on Wednesday morning on an extended trip to the Pacific coast, where they will locate for a time at 1628 Eleventh avenue, East Oakland, Cal. They will be gone about three months.

Children's Day services at the West St. Cloud church on Sunday, June 24, at 2:30 p. m. Preaching every Sabbath at 2:30. Everybody invited. Rev. G. A. Brown, pastor.

The Local Red Cross Society has full charge of our store June 23 to 30. Call and see them. Durham's Department Store. 43-1t

Mrs. Flora Grimes returned to the Wonder City Friday night from a business and social trip to Crete, Neb. She found conditions up in that country, so far as disagreeable weather was concerned, quite as bad as represented and was glad to get back to the sunny skies of Florida.

Be prepared! Have your home wired, and do it now! We carry a full line of construction material and will render you the most efficient service. Durham's Department Store. 40-tf

Mr. J. F. Bailey, of Baile'ys Transfer, raised over three hundred dollars worth of strawberries on three city lots on Illinois avenue this season, and never missed a trip to Kissimmee either. Now he is going into the sweet potato deal. The back yard garden can be made a great success, and reduce the H. C. L. if properly managed.

Mr. C. M. White, of Massachusetts avenue brought into this office the other day a few ears of corn that was as good as any produced in the typical corn states. It was the Hastings Prolific variety, and was raised on what is known as the Dutton place, in ninety days, without the use of a pound of commercial fertilizer. It illustrates what can be done in Florida soil with intelligent management.

Do it now! Let us wire your house. We carry a full line of electrical construction material and employ only the best electrician, No trouble to give you estimates. Durham's Department Store. 40-tf

Mr. Geo. H. Knott, of New York avenue, reports a melon grown in his garden that tipped the scale at 62 pounds. An earlier product weighed 50 pounds. Some melon grower is Mr. Knott. Apropos of this item we might remark that the Tribune staff all like melons and it gives us exquisite pleasure to know that our neighbors are enjoying the luscious red-hearted beauties. They don't grow in our back yard.

Look for our ad in this paper. It will surprise you. Durham's Department Store. 43-1t

Mr. C. G. Bridges, who has been a guest of the New St. Cloud since early in March, left last Thursday morning for Washington, D. C. Mr. Bridges was a much-traveled gentleman, his experiences ranging from Arizona to Washington, D. C. He had accumulated a large fund of anecdote which was ever at the service of his hearers. He had an irrepressible sense of humor which enabled him to see the funny side of every situation. He contributed much to the gaiety of life in St. Cloud, and will be greatly missed. Luck go with him.

Comrade Thos. Rogers, of Detroit, Mich., who has spent four winters in St. Cloud, has bought a small house and one lot on New Jersey avenue and Fifteenth street. He will build quite an addition to his home and keep batch, which means he has come to stay and be a regular citizen of the Wonder City. He has been entertained by Mr. and Mrs. A. S. [illegible] of California avenue for four winters, and he likes the climate so well he will try the summer months.

A pleasing recognition by the government of the patriotism of its sons was received by the Firkins family whose son is serving in the U. S. Navy, and whose visit to St. Cloud was chronicled in the Tribune a few weeks since. The souvenir consists of a tastefully engraved card, about twelve by fourteen inches in size, bearing the words: "A man from this house is now serving his country in the United States Navy." The card is signed and sealed by the captain of the vessel to which young Firkins is assigned. The card has been neatly framed and occupies the place of honor on the walls of the Firkins home. It represents to its patriotic possessor all that the Iron Cross does to the legions of Germany, the Cross of the Legion of Honor to the brave Frenchman, or the Victoria Cross to the fighters of England.

Reedsburg, Wis.,

Editor Tribune:—

Will you kindly send me the names of any or all parties having small houses for winter rent. I am a property owner in St. Cloud and expect to winter there and posibly become a permanent resident and intend coming down there in October. Thaking you in advance for the favor, I am

Yours truly,

F. Pettis.

To All Patriotic People of Osceola County:

"DO YOUR BIT"

UNCLE SAM NEEDS farmers in the field; food products are as necessary as soldiers or ammunition. We must feed our own armies, our own nation and be able to supply our allies with bountiful food products throughout the period of war!

"Those Who Can't Fight Can Farm"

Florida is the most ideally located place in the country for this work of assisting the nation in carrying on a successful war.

St. Cloud and Osceola County are abounding in fertile fields of untilled soil, awaiting only the hand of man to bring forth rich harvests.

"Do Your Bit"

By taking a farm and producing the needed food products for the nation and her allies.

Here Is the Chance to Show Your Patriotism

There are in St. Cloud and the immediate vicinity more than two thousand acres of the most fertile soil that is uncultivated. To any man or woman who will take a parcel of land the St. Cloud Development Co., St. Cloud, Fla., will give free use of these lands in this vicinity, in order to allow those who wish to "do their bit", to show that they mean to stand behind the heads of the nation in waging a successful war. Applications may be made at any time after this notice, and will be allotted, free of charge, until all the lands are under cultivation. Write at once and get your share of these lands.

"IT'S YOUR PATRIOTIC DUTY---IF YOU CAN'T FIGHT, FARM"
